BT ACCESSORIES

# Plug-In Extension Kit

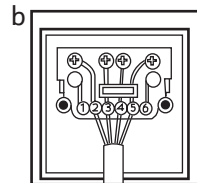

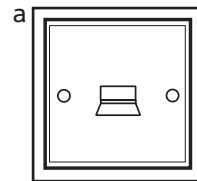

## 30 METRES

### CONTENTS

- 30-metre cable with adaptor
- Extension socket
- Cable clips
- Screws and plugs
- Cable tie

### INSTRUCTIONS

1. Locate the master socket (a). Do not connect the phone into the master socket until you have finished installing the extension socket.
2. Run the cable from this socket to the site for the new extension. Secure the cable with the clips provided.
3. Screw the backboard to the wall or skirting board. Take care not to screw into pipes, cables or other hidden services.
4. Carefully strip about 10-15mm of outer sleeve from each cable. Insert the wires under the screws using the colour code provided (b, c) and tighten screws to secure connections. To hold the cable firmly in place thread the cable tie through the cable tie post in the back of the wall socket.
5. Screw the front cover onto the back box.
6. Plug the adaptor into the master socket when the installation is complete.

**c**

1	Green/white
2	Blue/white
3	Orange/white
4	White/orange
5	White/blue
6	White/green

*Note* It is usual to use only connections 2, 3, 4 & 5 for domestic installations

### DO NOT

- Wire directly to the master socket
- Attempt to replace the master socket
- Run telephone cables together with mains cables

### DO

- Only join telephone wire in sockets or junction boxes
- Take care not to damage power cables
- Phone sockets should be at least 50mm from mains socket outlets

**For indoor use only.**

MADE UNDER GENERAL APPROVAL NUMBER NS/G/1235/W/100025/G/A25

### INFORMATION

For use only with an existing plug and socket system. Compatible with all standard telephone sockets.

#### Do you have all the extension sockets you need?

1. If you have this socket  it will need to be changed by a BT engineer before you can install extension sockets (chargeable service). To change it, dial 0800 800 150.
2. If you have this socket  select the linebox extension kit.
3. If you have this socket  select the plug-in extension kit.

For your safety we advise that if you are running cables you should take care to avoid any trip hazard, water ingress and proximity to mains cables. Length of cord quoted is typical and subject to manufacturing variations.
